

## ANA Group announces flight schedule for FY2026

- A Monitor Report

Date: 01 February, 2026

Narita : Ana Holdings Inc announced its flight schedule for fiscal year 2026 (FY2026), including the introduction of additional routes and new aircraft to support targeted growth and evolving market demand.

For FY2026, ANA Group will focus on enhancing customer convenience and profitability by optimizing its dual-brand network (ANA and Peach) and advancing synergies with its newly integrated Nippon Cargo Airlines (NCA).

As Japan's largest combination carrier, ANA Group will strengthen its cargo network by focusing ANA-operated freighters on Asia routes, while deploying NCA-operated freighters on North America and Europe services.

Effective March 29, ANA will increase freighter frequencies on the Narita-Bangkok route. In addition, NCA will introduce a combined total

of five additional weekly round-trip freighter services on its Narita-Chicago, Narita-Dallas and Narita-Los Angeles routes.

ANA Group will further strengthen cargo connectivity between Asia, North America, and Europe through a combination of dedicated freighter operations and belly capacity on its expanding passenger network.

Medium-sized freighters, including Boeing 767Fs, will be deployed on Asia routes, while larger freighters such as Boeing 777Fs and 747Fs will primarily serve North America and Europe.
