

## Expo Freight honored with Gold for Best Freight Forwarder, Logistics Provider

- A Monitor Report

Date: 16 July, 2025

Dhaka : Expo Freight Ltd (EFL) was honored with the Gold award in the Best Freight Forwarder and Logistics Service Provider category at the ShareTrip-Monitor Airline of the Year Awards 2024, in recognition of its unmatched contribution to Bangladesh's global trade supply chain and air cargo sector.

MGH Group earned the Silver, while global logistics giant DSV took home the Bronze, affirming their excellence in delivering timely, scalable, and integrated freight and logistics services across air, sea, and land routes.

*MGH Group representative receiving Silver trophy*

With over four decades of experience, Expo Freight Ltd has emerged as one of South Asia's premier freight forwarders, with a strong footprint in Bangladesh. Its Gold-winning credentials include: a robust multimodal logistics network spanning over 30 countries; specialization in garment and textile exports, a key driver of Bangladesh's economy; strategic partnerships with leading global airlines and integrators; and real-time tracking, customs clearance efficiency, and end-to-end visibility for clients.

Silver winner MGH Group, headquartered in Dhaka, is one of the region's most diversified logistics and supply chain conglomerates. Its Silver recognition reflects: long-standing partnerships with global express operators and air cargo carriers; comprehensive freight, warehousing, and distribution solutions; technology-driven systems for documentation, compliance, and inventory; and a regional presence that supports multinational clients across sectors.

Bronze winner DSV, a Danish logistics powerhouse with operations in Bangladesh, brings global standards to local freight handling. Its Bronze placement highlights: seamless integration of air, ocean, and road freight services; strong capabilities in contract logistics and customs brokerage; technology-enabled platforms for shipment visibility and customer service; and reliability in handling complex supply chain

needs, particularly for multinational corporations.
