

Over 30 Emirates Lounges are now open worldwide

A Monitor Report

Date: 01 January, 2023

Dubai : With the reopening of the 7th Dubai lounge after the Covid-19 pandemic now, more than 30 Emirates Lounges around the world have returned to full service for the premium customers.

Located in Concourse C, the newly re-opened Emirates Lounge is a 1308 square meter and 265- seat dedicated space for rest, relaxation, and refreshment before travel.

First and Business Class customers can access the lounge on a complimentary basis, as well as Silver, Gold and Platinum Skywards members.

Premium Economy and Economy passengers can enjoy paid access at USD 150 exclusive of taxes, or just USD 125 for Emirates Skywards members.

Currently open 24/7 to service the high demand of festive season, passengers can relax in the lounges for up to four hours before a flight. Emirates has a vast network of 39 dedicated airport lounges, including seven in Dubai and 32 located within major airports around the globe.

Emirates has completed its latest IATA Operational Safety Audit (IOSA) with zero findings - the equivalent of a perfect score, and a rare occurrence in the industry given the complexity of airline operations.

Over 1,000 standards and recommended practices were assessed by an (IATA) accredited audit organisation over five days.
