

Qatar Airways awarded 'Best Airline App 2025' at World Aviation Festival

- A Monitor Report

Date: 01 November, 2025

Doha : Qatar Airways has been recognized with the 'Best Airline App 2025' award at this year's World Aviation Festival, the largest aviation technology event in the world.

The winner was announced during the 'Battle of the Airlines Apps', a unique, side-by-side judged contest that began with travelers nominating their favorite airline app prior to the event. Then the five top-rated apps were evaluated by a jury based on user experience, mobile services, and digital innovation after each airline presented their digital platform.

The Qatar Airways app delivers personalized experiences at every step of the journey - on the ground and in the air. From booking the perfect trip across more than 170 destinations around the world to managing every detail with ease.
