

SriLankan Airlines launches easy online booking, offline payment option

- A Monitor Report

Date: 16 June, 2024

Dhaka : SriLankan Airlines has introduced an easy online booking and offline payment option through www.srilankan.com, allowing jetsetters in Bangladesh to purchase air tickets and ancillary services online once again.

Passengers who purchase online can now pay for their purchases at the SriLankan Airlines office in Dhaka within a convenient timeframe. This new facility aims to make the pre-flight experience seamless for digital customers by offering a viable payment solution for online purchases.

Earlier, there had been challenges faced by travellers in making online payments in foreign currency through credit cards. Aiming to address that, SriLankan Airlines Bangladesh team has leveraged the technology and successfully streamlined the booking process, providing greater flexibility to passengers in Bangladesh, said the airline in a release.

Passengers who book through the SriLankan Airlines website enjoy exclusive access to attractive fares and privileges. Booking online provides benefits such as exclusive deals, promotions, a complimentary first date change and guaranteed best fares. The introduction of an offline payment option extends these benefits and more to passengers in Bangladesh who prefer the convenience of booking online.

SriLankan Airlines is the only carrier with a daily direct service between Dhaka and Colombo, Sri Lanka. It is also able to deliver convenient connections via Colombo to key cities in the Far East, the Middle East, India, Europe and the Maldives for Bangladeshi passengers.
