

Turkish Airlines offers new UNESCO Türkiye series amenity kit

- A Monitor Report

Date: 16 January, 2025

Istanbul : Turkish Airlines introduces "UNESCO Türkiye Series" amenity kit collection, showcasing Türkiye's rich cultural heritage. The new amenity kit collection is inspired by six outstanding UNESCO World Heritage sites in Türkiye which are Nemrut, Göbeklitepe, Cappadocia, Ephesus, Ani, and Troy along with four different ebru (Turkish Marbling) designs and three traditional carpet-rug motifs.

These new kits are now being offered in Business Class on flights ranging from five to eight hours, while different versions will be introduced in mid-January for Economy Class on flights lasting more than eight hours.

Developed in collaboration with the Turkish National Commission for UNESCO, this special collection highlights Turkish Airlines' vision to not only provide comfort above the clouds but also showcase Türkiye's historic and cultural values on the global stage.
