A Monitor Report

Date: 01 March, 2021

---

**Dhaka:** In a recent official announcement, the worldwide popular audio streaming and media services provider Spotify announced to open up streaming services in over 80 new territories including Bangladesh.

In addition to Bangladesh, Spotify will simultaneously be opening up streaming service in a few neighboring countries as well, such as Pakistan, Bhutan, Nepal, Maldives and others. With this sweeping expansion, Spotify will be operating in over 170 markets and serving more than a billion people.

The announcements were made during Spotify Stream On live streaming event by Spotify founder and CEO Daniel Ek.
