

## Surecell Medical enters seventh year of operations

A Monitor Report

Date: 16 February, 2023

Dhaka : Most people suffer from knee pain at some age. Surecell Medical, located at Gulshan 1 in the capital, has been treating all these pain related issues without surgery and medicine but with confidence and success for a long time. In early 2023, the organisation enters its seventh founding year.

On the occasion, Surecell Medical organised a "Meeting and Appreciation Programme" at its premises. High dignitaries were present at the event, who have been former patients of the organisation.

Former Army Chief Lieutenant General (retd) M Noor Uddin Khan, Barrister Tanya Amir, Professor of Gynecology Dr Roshan Ara Begum, Dhaka University Professor Roshan Ara Feroze, Editor and Politician Shaukat Mahmud, SBSE Bank Managing Director SM Nasir Uddin, among others, were present at the anniversary programme.

Speaking on the occasion, Director of the organisation and orthopedic specialist Dr AKM Mohiuddin, said, "Regenerative medicine can treat various types of joint pains including knee pain, osteo-arthritis, back pain, frozen shoulder, meniscus, ligament injury, or hip joint AVN, without any surgery or drugs."

Surecell Medical is an Australian franchise company in Bangladesh. Apart from orthopedic treatment, Surecell Medical also provides state-of-the-art medical facilities such as nutritional counseling, physiotherapy, acupuncture, dermatology, psychology, dental, pathology, radiology and hyperbaric oxygen therapy, Mohiuddin added.
