

## InterContinental Dhaka leads sustainability with AI-powered glass bottle water plant

- A Monitor Report

Date: 17 January, 2026

Dhaka : InterContinental Dhaka, the luxury hotel by IHG, has strengthened its commitment to environmental stewardship by becoming the first hotel in Bangladesh to introduce an AI-powered Glass Bottle Water Plant producing Zero Mile Artisanal Water - setting a significant new benchmark in sustainable hospitality.

The facility was recently inaugurated in the presence of Nasreen Jahan, Chairman of Bangladesh Services Ltd and Secretary of Ministry of Civil Aviation and Tourism; Mohammad Mahbubur Rahman Bhuiyan, Managing Director of Bangladesh Services Ltd and Additional Secretary of Ministry of Civil Aviation and Tourism; and David O'Hanlon, General Manager of InterContinental Dhaka; along with Board Members of Bangladesh Services Limited and senior hotel officials.

In partnership with Boon, a global leader in advanced hydration

technology, InterContinental Dhaka has installed the state-of-the-art water plant within the hotel premises. This initiative aims to eliminate the use of single-use plastic water bottles across all guest rooms, restaurants, and banquet venues - significantly reducing plastic waste and supporting a greener future for the hospitality industry in the country.
