

Multi cuisine fare at Sky Vista

- Asma Ali

Date: 16 September, 2025

The city is now abuzz with restaurants and eateries, cafes, and diners scattered all around the metropolis. Almost every week a bunch of new food corners are opening in different parts of the city. These places offer a variety of cuisines, ranging from local to oriental to continental. Among all the different types of cuisines, Thai and Chinese are the most popular. Thus, it is no surprise that new such restaurants are opening almost every week-making the city dine-out scene all the richer and more robust.

Sky Vista is one of the most recent additions in this regard. Opened in March 2025, this restaurant can be easily termed as a multi-cuisine place. The foods range from Thai, Chinese, Japanese to Continental. Each menu starts with the regulars like appetizers-n-salads-soups. The mains include an array of different types of fish, meat, and seafood.

Steaks, Chicken, Beef, Prawn, and Seafood, prepared in different styles

and tastes, are served according to the guest's choice. Rice in different styles-like Seafood Rice, Nasi Goreng, Chinese Fried Rice are there as the main sides. Sushi, Maki Rolls, Sashimi are a few of their popular Japanese items. Bento Box is a very typical Japanese food combo, which is served in a special way-in a box known as the Bento Box. Sky Vista is possibly one of the few restaurants in Dhaka, which offers different Bento Box combos-each unique with its own specialties.

Apart from these delicacies, the menu also has favorites like Pizzas, Burgers, Sandwiches and the all-time-favorite Kababs-n-Naans. There is a special pizza which is known as the Six Season Pizza as it has six different pizza combos served in one pan. This specially designed pizza makes it more tempting as it has a slice for each of the guests and each can taste his/her own favorite. The drinks menu has both hot and cold

options to choose from. It is ladled with different types of juices, shakes, mocktails, lassis, smoothies and teas of different flavors.

Sky Vista is spread over two floors, with an open dining space on the top floor. Here, there are also secluded rooms for private/family dinners, which can accommodate around seven guests. The guests are entertained with live music every evening, where there are new vocals each day. This is one of the few restaurants in the city which has an exclusive space for the kids. This is a cozy, and cute kids' corner complete with all the bright and beautiful kids' toys, where the kids can enjoy a lot, having a bubbly play time.

Located at Mid Town Centre in Gulshan 1 (Rd 130/131), the restaurant can seat around 120 guests on the first floor and 80 on the top floor. They are open from noon till midnight.
