

## Oman Air launches dedicated Bangladesh landing page to enhance travel experience

- A Monitor Desk Report

Date: 23 November, 2025

**Dhaka: Oman Air has unveiled a dedicated Bangladesh landing page aimed at enhancing the digital experience for travelers across the country.**

The new platform, developed with the airline's eCommerce team, is designed to offer Bangladeshi passengers a localized, user-friendly interface with tailored content and promotions.

The page provides essential travel information relevant to customers from Dhaka, Chattogram, Sylhet and other regions, including visa details, guidelines, and route updates.

It also highlights special fares to popular destinations such as Muscat, Jeddah, London, Dubai, and key cities across Europe, allowing travelers to browse competitive deals and seasonal offers easily.

To support evolving travel needs, Oman Air has integrated a range of ancillary services into the platform, including seat selection, extra baggage, travel insurance, and airport add-ons, enabling passengers to customize their journey from booking to arrival.

A dedicated section showcasing favorite destinations among Bangladeshi travelers offers travel ideas, cultural insights, and guidance for planning future trips.

Additional online enhancements are expected as the airline continues to focus on convenience, personalization, and improved customer engagement.

Travelers can access the new Bangladesh landing page via Oman Air's official website at <https://www.omanair.com/flights/en-bd/flights-from-bangladesh>.
