The Bangladesh Monitor launches applications for Android, iOS

- A Monitor Desk Report   Date: 21 April, 2025

Dhaka: The Bangladesh Monitor has launched its applications for Android and iOS platforms, with the aim to seamlessly avail the latest news and updates on aviation, travel, tourism, and other related sectors across all sorts of digital platforms.

Developed by M360 ICT, a renowned IT solution provider in the country, the newly released applications feature a modern and intuitive user interface, while their reader-friendly user experience ensures the users can stay focused on reading. In addition to this, the categorization feature helps readers of every niche to receive their preferred news and updates directly.

The Android application is available at Google's Play Store and has already received a wide share of popularity. It can be downloaded at https://play.google.com/store/apps/details?id=com.m360ict.the_banglad

[esh_monitor](#).

Apple users can download the iOS application from the App Store at https://apps.apple.com/us/app/bangladesh-monitor/id6737251833.

The country's premier travel and tourism publication, The Bangladesh Monitor, has been publishing a fortnightly journal on the 1st and 16th day of every month and takes pride in maintaining the streak for more than 34 years. Along with the printed publication, the platform offers 24/7 updates through its online-based news portal, bangladeshmonitor.com.bd. The addition of smart applications reflects the platform's efforts to align with the modern trends and remain relevant among the digital citizens.
