

UK introduces e-visas for Bangladeshis

- A Monitor Desk Report

Date: 25 February, 2026

British
High Commission
Dhaka

Dhaka: The United Kingdom will issue only electronic visas (e-visas) for Bangladeshi applicants from February 25, announced the British High Commission in Dhaka on its social media page.

After a visa is granted, applicants will need to create a UK Visas and Immigration (UKVI) account to link their passport details and access their e-visa. The High Commission said, it is important to verify and update this information before traveling.

Travelers will be allowed to enter the UK only after their passport details are updated in their UKVI account. There is no fee for using the UKVI service.

Further details are available at: www.gov.uk/eVisa.
