

## Visa-free, easy-entry destinations for Bangladeshi travelers in 2026

- A Monitor Desk Report

Date: 21 January, 2026

Dhaka: International travel is becoming more accessible for Bangladeshi passport holders, with a growing number of countries offering visa-free entry, visas on arrival, or simplified electronic travel authorizations (eTA). In 2026, these relaxed entry policies are opening doors to beach paradises, cultural capitals, and adventure-filled islands — without the paperwork-heavy visa process.

Under a fully visa-exempt policy, Bangladeshi travelers do not need to apply or pay for a visa in advance. A valid passport is enough to enter the destination. Other countries offer visas on arrival or eTA systems, allowing travelers to complete formalities at the airport or online.

Here is a closer look at where Bangladeshi citizens can travel more easily in 2026 — and what makes these destinations worth the journey.
