

## Eid collection by Cat's Eye

A Monitor Report

Date: 16 April, 2022

Dhaka : Country's one of the leading fashion brand Cat's Eye wants to spread the message of excitement in every new ready-to-wear design for Eid. So the motifs and design details have touches of the festive mood with bright colours or experimental patterns.

Cotton can absorb sweat and loose clothing is comfortable. The designs and colours of Cats Eye's clothes have been chosen considering the summer heat.

Cat's Eye brings long tops which is the main attraction of this year's Eid for young women. These Eid collections will include a variety of necklines, embroidered value additions, oversized silhouettes, soft fabrics and more playful colours.

Meanwhile, there is no shortage of organising men's Eid clothes. The panjabi and mandarin vests have their own designs, basically mixing modernity with tradition. There are also differences in panjabi collars and plaques.

Eid clothes can be used comfortably all year round. So shirts, polos and bottoms have also undergone major changes. Printed, striped and jacquard predominated on the canvas of the shirt.

Sadiq Quddus, Director of Cats Eye and Head of Design, said, "A dress tells the story of a person's personality. Cat's Eye helps to make those stories clearer through every costume being ideated and created."
