

## Air India flight returns to Delhi over mid-air snag

- A Monitor Desk Report

Date: 10 January, 2025

Chennai: An Air India flight bound to Singapore from here on Friday (Jan 10) returned to the city after pilots detected a technical snag mid-air, officials at the airport here said.

The pilots contacted the airport upon discovering the issue, to return to the city and the flight, with about 170 passengers later made a safe landing, they added.

Engineers were attending to the snag and the flight is expected to resume its journey later.

Air India authorities are not immediately available for comment.
