

Akasa Air to launch Kuwait flights from August 23

- A Monitor Desk Report

Date: 30 July, 2024

Mumbai: Akasa Air will commence services to Kuwait from August 23, making it the fifth international destination for the airline that will be completing two years of flying next month. A daily direct flight will be operated between Kuwait City and Mumbai from August 23, the airline said in a release on Monday (July 29).

The carrier said the service will add significant passenger and cargo capacity to the route and will capture the perennial demand for VFR (Visiting Friends and Relatives) and business travel between India and Kuwait.

Set to complete two years of operations early next month, Akasa Air, currently, flies to four overseas destinations -- Doha (Qatar), Jeddah, Riyadh (Saudi Arabia) and Abu Dhabi (UAE) -- apart from 22 domestic cities.

Akasa Air started flying on August 7, 2022.
