

Charter plane from India lands at Karachi airport

- A Monitor Desk Report

Date: 16 August, 2022

A charter plane carrying 12 passengers from India landed at Jinnah International Airport in Karachi city of Pakistan on Monday (August 15).

The plane, which took off from Hyderabad's Rajiv Gandhi International Airport, landed at the Karachi airport at 12:10 pm (local time).

Confirming this, a Civil Aviation Authority (CAA) spokesperson said that the said international charter aircraft had taken off from India and apart from this, it has no connection with any other country. Shortly after landing in Karachi, the special flight again took off with all the 12 passengers. It is not yet clear why the plane landed at Karachi airport.

It is worth noting that earlier two planes taking off from India had to land at Karachi airport last month due to technical reasons.
