

DGCA adds new features on its eGCA portal

- A Monitor Desk Report

Date: 19 December, 2022

D.G.C.A, Govt. of India

Aviation regulator DGCA has launched new features on its e-governance platform for stakeholders. The eGCA handles greater than 300 providers associated to DGCA.

The new features embrace the facility to fetch pilots' flying hours on a real-time foundation that will even assist in quicker processing of licence purposes. The Air Operator Certificate (AOC) database has been built-in with the civil aviation ministry's heli-sewa portal that may permit speedier processing of touchdown requests.

Operators are now issued the certificates of airworthiness with respect to newly inducted plane at overseas supply areas via the regulator's eGCA portal for ferrying the planes to India, based on the Directorate General of Civil Aviation (DGCA).

The eGCA, a single window e-governance platform, has been enhanced to additional enhance the ease of doing enterprise in the civil aviation ecosystem.

The pilot e-logbook in eGCA has been built-in with numerous operators' inside software program via API (Application Programming Interface) whereby pilots'

flying information will be instantly transferred into their e-logbooks on the eGCA portal.

The transfer will get rid of handbook interventions.

Tata Consultancy Services (TCS) developed an API via which numerous airways would channel their pilot knowledge from their system to eGCA.

IndiGo has already carried out this interface. Other airways, together with Air India/Air India Charters, Air Asia, Go First, SpiceJet, Vistara and Blue Dart are in the last levels of testing and are anticipated to implement the similar in one other one to 2 months, the official mentioned.

The official mentioned the facility will assist in well timed submission of purposes by the pilots for the issuance, renewal and endorsement of licences by removing of multi-layer data-validation steps.

With the integration of operators' AOC database with heli-sewa portal, the official mentioned the workload has significantly lowered for the candidates and helicopter operators as they'll entry each eGCA and the portal via the similar ID. Also, their requests and intimations will be processed quicker.
