Dhaka: DHL Express, the world's leading international express services provider, announced price adjustments on September 23 that will take effect on January 1, 2023.

The average increase in Bangladesh will be 7.9 per cent, compared to 2022, said DHL Express Bangladesh in a press release.

"With the annual price adjustment, we are able to invest in our infrastructure and technology to ensure resilient, sustainable, and world-class customer solutions. It includes state-of-the-art aircraft and vehicles, expanding our hubs and gateways to meet increasing customer demand, and investing in

green and more sustainable solutions, such as Sustainable Aviation Fuel and electric vehicles,” he added.

Prices are adjusted on an annual basis by DHL Express, taking into consideration inflation and currency dynamics as well as administrative costs related to regulatory and security measures.

These measures are being regularly updated by national and international authorities in each of the more than 220 countries and territories that DHL Express serves.

Depending on local conditions, price adjustments will vary from country to country, and will apply to all customers where contracts allow.
