

## Emirates and Air Canada expand codeshare partnership

- A Monitor Desk Report

Date: 17 August, 2023

**Dubai: Emirates' codeshare partnership with Air Canada has been extended to include flights to and from Montréal. Emirates customers will now be able to plan travel between 11 of the most popular domestic points beyond Montréal and destinations on Emirates's expansive network, utilising the services of both airlines conveniently on a single ticket.**

The expanded network of Canadian points included in the codeshare partnership between Emirates and Air Canada now extends to 11 destinations via Montréal, with an additional 69 points accessible from the gateway, on an interline basis.

Expansion of codeshare partnership will immensely benefit people travelling from Bangladesh on Emirates. It opens an opportunity for seamless and hassle free to travel to Canadian destinations via Montreal on a single ticket and also from Canadian destinations to Dhaka via Montreal.

As per previous arrangement, from Toronto, Emirates' customers can travel to 19 points whilst enjoying codeshare benefits, and an extra 100, made possible through an interline arrangement.

Customers travelling from Canadian cities can easily connect to Emirates' services in Montréal or Toronto to travel to exciting destinations across Asia, Africa and the Middle East, via the airline's hub in Dubai.

Travellers with itineraries on Emirates' flights can plan their entire trip on a single-ticket and take advantage of hassle-free flight benefits including the airline's baggage allowance, in addition to convenient bag check-through (valid for travel out of Canada only) to the final destination.

Furthermore, members of Emirates' frequent flyer programme, Emirates Skywards, can look forward to earning and redeeming miles on flights of both airlines, courtesy of the partnership.

Emirates now operates daily flights to Montreal, The airline serves Dhaka with 21 weekly flights.
