

Emirates and Heathrow agree on capacity issues

- A Monitor Desk Report

Date: 19 July, 2022

The President of Emirates Airline and the CEO of Heathrow Airport held a constructive meeting. Emirates agreed the airline was ready and willing to work with the airport to remediate the situation over the next 2 weeks, to keep demand and capacity in balance and provide passengers with a smooth and reliable journey through Heathrow this summer.

Emirates has capped further sales on its flights out of Heathrow until mid-August to assist Heathrow in its resource ramp up, and is working to adjust capacity.

In the meantime, Emirates flights from Heathrow operate as scheduled and ticketed passengers may travel as booked.
