

Emirates Aviation University graduates 26,000 future aviation leaders

- A Monitor Desk Report

Date: 02 July, 2025

Dubai: Emirates Aviation University (EAU) has celebrated its 35th graduation ceremony by honouring 154 bright, savvy and accomplished scholars who are poised to shape the future of global aviation. Since 1991, EAU has graduated over local and foreign 26,000 students.

This year's cohort represented over 25 nationalities and a range of postgraduate and undergraduate degrees and disciplines, including aviation management, aviation safety, air transport management, aerospace and aeronautical engineering.

The graduating class of 154 students includes 24 postgraduate and 130 undergraduate students, and some who are Emirates-sponsored. The university honoured 19 exemplary students across all disciplines.

Over 650 undergraduate students received the once-in-a-lifetime opportunity to intern with the Emirates Group for more than one semester in the last 4 years. The Emirates Group Internship Programme offers students valuable real-world experience as an integral part of their academic studies. Undergraduate students undertake a one-semester placement, earning up to 15 credit hours toward their degree.

Emirates Aviation University, the education arm of the Emirates Group, has established itself as the leading university for aviation studies in the region. The university offers a comprehensive range of undergraduate, postgraduate, and research programmes in aeronautical engineering, aviation management, logistics and supply management, AI and data science, aviation safety, and aviation security studies.
