

## Emirates lifts flight suspension, resumes limited operations from Dubai

- A Monitor Desk Report

Date: 16 March, 2026

**Dhaka: Emirates will operate a limited schedule from Dubai International Airport after 10:00 am local time, as per its latest travel update.**

Earlier, the airline had suspended all flights from Dubai following drone attacks near the airport.

In its latest update, Emirates said passengers affected due to flight cancellations will receive a notice and will be advised on reaccommodation options.

The Dubai-based carrier apologized for the inconvenience caused because of cancelled flights. The airline said it will publish updates assessing the situation.

Flight operations across the Middle Eastern airports have been severely disrupted since February 28, when the US and Israel started conducting joint air strikes on Iran.

Iran retaliated with missile and drone attacks on the US military bases, Israel, and neighboring countries in the Middle East, including the UAE, Qatar, Kuwait, Bahrain, and Saudi Arabia.
