

## Emirates signs new distribution agreement with Amadeus

- A Monitor Desk Report

Date: 29 January, 2022

Dubai: Emirates has signed a new agreement with Amadeus, a leading global distribution system (GDS), extending their partnership to offer the travel trade community more flexibility, choice, and future capabilities.

From 1 February 2022, all trade partners on Amadeus will be able to access Emirates' content free of surcharge.

The new agreement will also see Emirates' NDC (new distribution capability) content integrated into the Amadeus Travel Platform; with NDC content being made available to travel sellers over the course of 2022.

Catering to a dynamic marketplace, Emirates aims to provide its trade partners with a choice of connection options and differentiated products and benefits across channels, including via its own NDC-enabled direct connect platform, Emirates Gateway.
