

## Emirates' third non-stop service between Melbourne and Dubai

- A Monitor Desk Report

Date: 09 December, 2024

Dubai: Emirates will be introducing a third non-stop service between Dubai and Melbourne, starting from 30 March 2025. The third service will be operated with a newly retrofitted four-class Emirates Boeing 777-300ER, equipped with the airline's award-winning Premium Economy product and latest generation Business class seats.

The airline currently operates two non-stop daily flights between Dubai and Melbourne using four-class Airbus A380s, and a daily flight that connects Dubai to Melbourne via Singapore with a Boeing 777-300ER aircraft.

Emirates' latest refurbished Boeing 777 includes 8 First Class Suites, 40 Business Class seats, 24 seats in Premium Economy, and 256 Economy Class seats.

With the upcoming deployment of Emirates' four-class Boeing 777 aircraft to and from Melbourne, the airline will offer 3,472 weekly Premium Economy seats across Melbourne and Sydney, enabling more travellers to experience its best-in-class features and upgraded amenities.

The airline now operates 77 weekly services to and from five Australian gateways - Sydney, Melbourne, Brisbane, Perth, and Adelaide. Emirates and Qantas thanks to the 10-year codeshare partnership between the two airlines customers can access to more than 120 codeshare destinations, including 60 points across Australia and New Zealand.
