

Emirates travelers can now preorder meal

- A Monitor Desk Report

Date: 22 October, 2023

Dubai: Emirates Inflight Meal Preordering Service is now live across 92 routes globally. More than 600 meal preorders are made by Emirates customers daily.

The new service allows passengers in Business Class to preselect their main course between 14 days and 24 hours in advance of their flight departure, ensuring they get their preferred choice every time as well as helping to reduce food wastage.

Emirates passengers can browse the onboard menu on Emirates.com or on the Emirates app to choose from a selection of regionally inspired dishes with locally sourced ingredients, up to a fortnight before a flight.

Onboard the aircraft, cabin crew will use Apple devices to view the preordered selection and serve the passenger their choice of dish.

The preordering meal service is complemented by website check-in and app check-in, the option of digital boarding passes and itinerary management, access to digital inflight menus, easy sign up to Skywards to immediately access free Wi-Fi messaging onboard, and ice inflight entertainment playlist curation in advance of a flight.
