

GDRFA to showcase smart travel services at Dubai airshow

- A Monitor Desk Report

Date: 16 November, 2025

Dhaka: The General Directorate of Identity and Foreigners Affairs–Dubai (GDRFA Dubai) will showcase a suite of digital and AI-driven services at the Dubai Airshow 2025, which runs from Nov. 17–21 at Dubai World Central.

The event is expected to draw government and private-sector participants from around the world.

GDRFA Dubai said its presence aligns with Dubai’s broader digital transformation agenda and aims to improve the experience of visitors and investors.

The authority will present services including the Golden Visa programme; a Command and Control Platform for managing field operations; and the Salama Digital Platform, which uses artificial

intelligence to support safety and operational efficiency.

Other offerings include Platform 04 for digital interaction with government services, the GCC Resident Visa to ease regional mobility, the Smart Corridor “Red Carpet” system for seamless travel, and a Happiness Card for Tourists that bundles hospitality and service benefits.

The Dubai Airshow is among the world’s largest aerospace events, featuring more than 1,500 exhibitors from 148 countries and over 200 commercial, military and private aircraft. GDRFA Dubai said its participation supports Dubai Vision 2033 and reflects its push to deliver integrated digital services with higher efficiency and innovation.
