Dhaka: Gulf Air has increased its weekly flights between Thiruvananthapuram International Airport and Bahrain in response to growing demand.

The announcement, made on Sunday (Nov 23) by Thiruvananthapuram International Airport Ltd (TIAL) via a Facebook post, cited higher travel demand from expatriates.

Effective immediately, Gulf Air will offer 7 flights per week, a notable rise from the previous 4.

This expansion aims to accommodate the growing number of travelers from Southern Kerala and Tamil Nadu seeking direct flights to the West-Asian nation.

The flight schedule includes two departures on both Mondays and Tuesdays, while single flights will operate on Wednesdays, Thursdays,

and Saturdays, ensuring greater flexibility and convenience for passengers heading to Bahrain.
