Montreal: The International Air Transport Association (IATA) is offering an online training course to help laid-off airline cabin crew members re-enter the job market. This course will be offered free of charge for those who register between 9 and 23 February.

The course enables the crew to enhance, promote and recognize professional skills that can be leveraged in other jobs

A survey of 800 cabin crew who have lost their jobs in the crisis found that 78 percent wanted help to identify skills that can enable them to transfer into other roles.

IATA offers free training to former cabin crew transitioning into the job market.
