

IndiGo to restart flights from Delhi airport's T1 from Sep 2

- A Monitor Desk Report

Date: 31 August, 2024

NewDelhi: IndiGo announced it will resume operations from Terminal 1 (T1) at Delhi airport starting September 2.

The airline will manage 35 daily departures from T1. This transition comes after T1 was temporarily closed due to a roof collapse incident on June 28, which shifted flight operations to Terminals 2 and 3.

"Proactive measures have been taken to ensure that passengers are well-informed about this transition. Domestic flight with flight numbers 2000-2999 will operate from Terminal 2 and flight numbers from 5000-5999 will operate from Terminal 3 and rest all flights will operate from Terminal 1," the airline said in a release.

The new T1 at Indira Gandhi International Airport began operations on August 17.
