

Saudia inaugurating flights at Red Sea Int'l Airport in 2023

- A Monitor Desk Report

Date: 21 September, 2023

Dhaka: The Kingdom of Saudi Arabia, earlier, formally revealed that the Red Sea International Airport programme is scheduled to open by 2023 end and serve at least a million passengers by 2030. Recently, new developments in the programme showed that Saudia will be the first airline to operate from the new airport.

The Red Sea International Airport programme began construction in 2021, approximately 15 kilometers inland from the coast of the Red Sea, hence the name.

Despite a final construction completion date scheduled for 2030, the first phase of the Red Sea International Airport programme is expected to open later in 2023, alongside the first three of 50 hotels also part of

the overall programme.

Reports cited John Pagano, Group Chief Executive Officer, Red Sea Global (developer of Red Sea Int'l Airport) saying, "When the first commercial flight touches down at Red Sea International, it won't merely be a matter of personal pride for Red Sea Global. It will better symbolize a landmark achievement for the Kingdom of Saudi Arabia in transforming that vision into a tangible reality."

Speaking of the first commercial flight, the developer recently signed a Memorandum of Understanding (MoU) with Saudia and daa International - the selected operator of Red Sea International Airport.

Under the new agreement, the flag carrier is on course to become the inaugural carrier to operate inbound and outbound flights from the new airport.

Captain Ibrahim Koshy, Chief Executive Officer, Saudia, commented, "This agreement marks a new chapter in Saudi Arabia's aviation history. As wings of Vision 2030, Saudia's contribution is to be an enabler in attaining giga project targets, and our involvement as the first airline to operate to and from Red Sea International Airport is a source of pride for us all."
