

Saudia's Q3 traffic jumps 10pc

- A Monitor Desk Report

Date: 26 October, 2024

Riyadh: Saudia, the national airline of Saudi Arabia, reported a 10 pc rise in passenger traffic for Q3 2024.

Flight operations also increased by 9pc, with the airline completing over 49,500 flights and accumulating 146,700 flight hours—a year-over-year growth of 11pc. The airline's on-time performance rate stood at an impressive 87.8pc.

On international routes, Saudia carried more than 5 million passengers, a 9pc increase, and operated over 21,900 flights.

The international fleet achieved over 102,400 flight hours.

Domestically, Saudia served over 4 million passengers, reflecting a 12 percent increase, with more than 27,500 flights.

Domestic flight hours exceeded 44,200, and the airline maintained a

commendable on-time performance rate of 91.5 percent.

Ibrahim Al Omar, Director General of Saudia Group, emphasised the airline's commitment to providing innovative services that enhance the travel experience for its valued customers, as reported by Saudia.
