

Vistara to boost frequencies to Frankfurt and Paris

- A Monitor Desk Report

Date: 18 August, 2022

Vistara has announced more than a 100pc increase in frequencies to/from Frankfurt and Paris as it gears up to receive its third Boeing 787-9 Dreamliner aircraft which has been leased recently.

Starting from 30 October, the airline will operate 6x weekly flights between Delhi and Frankfurt, up from the current 3x weekly frequency; while connectivity between Delhi and Paris goes up from 2x to 5x weekly. Vistara opened sale for these additional flights, across all channels including its website, mobile app, OTAs (online travel agencies), and other travel agents.

Deepak Rajawat, Chief Commercial Officer, Vistara, said, “Europe has been a key focus market for us since the very beginning, and we are glad that our customers appreciate our offerings on these long-haul routes. We have been wanting to ramp up frequencies on these sectors and we are delighted to be able to finally do that.”
