

## E-gates to be launched at Chattogram Airport

A Monitor Report

Date: 16 November, 2022

Chattogram : After opening of e-gates at Hazrat Shahjalal International Airport in the capital, six electronic gates have been introduced at Chattogram Shah Amanat International Airport.

The e-gates were inaugurated on November 15, 2022 to make the immigration process faster and improve the quality of services, said Wing Commander Taslim Ahmed, director of the airport.

The E-gates are managed by immigration police and cameras are installed in each gate. Passengers can easily pass through the e-gates as the gates open automatically after submitting e-passport and the whole process is completed within 30 seconds, said airport authorities.

Earlier on June 7, 12 e-gates were inaugurated at Dhaka Airport.
