Dhaka : MediTrip, a sister concern of US-Bangla Airlines, has been established with an aim to facilitate medical travellers living in Bangladesh as well as the expatriate Bangladeshi community residing abroad with a one-stop healthcare solution.

The organisation provides medical travellers with the most efficient healthcare services in India, currently. However, from October 1, 2024, the company will start facilitating medical travellers to Thailand, Malaysia, Singapore, Turkey and the UAE even.

Dr A S M Kawsar Nahid, COO of MediTrip, said this while talking to The Bangladesh Monitor at his office in the capital recently.

Since August 1, 2024, MediTrip has been facilitating medical travellers with end-to-end medical travel services from medical consultation, patient profiling and cost analysis to hospital reservation, doctor's

appointment, flight/hotel booking, visa support or even ground transport.

It is currently deploying managers in all the 16 international destinations that US-Bangla Airlines operates in, informed Nahid. The aim is to bring all those countries under MediTrip's network, he added.

He further mentioned, MediTrip will operate even in destinations where US-Bangla does not fly to. For instance, it will be facilitating medical travellers to Delhi from November, expressed Nahid.

MediTrip's mission is to provide travellers with seamless access to world-class healthcare solutions while exploring new destinations. Their network boasts a stunning range of hospitals and hotels which is ever increasing, claimed Nahid.

With their extensive network of accredited hospitals and top medical professionals, MediTrip ensures that the health journey of a patient is handled with utmost care and expertise, according to Nahid.

Whether one is seeking advanced treatments, specialised surgeries or wellness consultations, MediTrip offers a tailored approach to meet his/her unique needs. Enjoy high-quality care at competitive prices, all while experiencing the vibrant cultures and beautiful landscapes their partner destinations have to offer.

Since the company is a sister-concern of US-Bangla Airlines, MediTrip can offer special air ticket rates to its customers, expressed Nahid. This gives the organisation an edge over its counterparts in the market and its customers better facilities.

Ultimately, MediTrip is dedicated to make patients' medical travel experience smooth, safe and rewarding, concluded Nahid.
