

Saimon Global becomes GSA for Verteil Technologies in BD

-A Monitor Report

Date: 01 April, 2023

Dhaka : Saimon Global Limited has signed GSA partnership for Bangladesh with Verteil Technologies, one of the leading NDC companies from India.

NDC (New Distribution Capability) is a travel industry-supported programme launched by IATA for the development and market adoption of a new XML-based data transmission standard (NDC Standard).

Verteil Technologies is a leading travel tech company and NDC aggregator fully focused on phasing out legacy airline distribution space with its new direct connect distribution system, based on IATA's New Distribution Capability (NDC).

On the occasion, Yami M Saleh, MD and CEO, Saimon Global Limited,

said, "We are excited to be working with Verteil in their NDC adoption journey, helping them realise the true potential of Bangladesh travel Industry which is increasing the use of high-tech solutions currently."

Verteil Direct Connect (VDC) is Verteil's flagship product. It is a B2B travel portal that helps travel agents to search, book and modify airlines' content.

Travel agents can book NDC tickets for 33+ full-service airlines on VDC, and more airlines are getting on boarded with us every month.

IATA Approved OTA's can now get NDC contents of major airlines from one API. Connecting with airlines' NDC channel can be a very time-consuming and expensive task. IATA Approved OTA's can now get NDC contents of major airlines from one API.

Their API allows a unified API offering for travel agents that allows them with access to all NDC contents for 33+ airlines on a standard interface. Some of the major Airlines include Singapore Airlines, Emirates, Qatar Airways, and Omar Air, among other LCC carriers.

Connecting to Verteil's NDC API will allow travel agents to get exclusive contents such as significantly lower fare in many cases from traditional GDS and will allow travel agents access to airline ancillary services from which the Travel Agents can increase their earnings. A full support for booking, issuing, date change, cancellation, void, and post-booking ancillaries is available for smooth operation. IATA Agents can OPT to make payments through CASH BSP channel.

Saimon Global Ltd is one of the leading travel, visa processing and travel technology company in Bangladesh. The company specialises in Airline GSA operations and are currently the GSA of: Singapore Airlines (passenger).
